Per your request I am providing clarification associated with your review of the inspection records and survey documentation associated with the closure of portions of RCRA Unit 707.1 You reviewed the inspection records associated with rooms 125, 126 (and 126 racks), 167, 169, 171, 175, 180, 181, 182 and Module E racks. The clarification you requested is associated with the inspection of room 169. This room is part of the group of rooms generally referred to as Cal-Gamma (167, 169, 171, 175, 180). As you noted in your review the inspection logs for the Cal-Gamma list rooms 167, 171, 175, 180 but failed to include room 169 on the log sheet. I spoke with the individual who performed the inspections (Mark Garcia) and he confirmed that the omission of room 169 was an oversight and that the room was part of the Cal-Gamma inspection. Hopefully this provides and adequate explanation of the situation.

I appreciate the time you took to complete this review. It has been a pleasure working with you over the past several years and hopefully our paths will cross in the future.
